Module 4: Create Portfolio ebsite

New tags:

- `<section>` : age div tag use kora hoto container tag hisebe but akhn section tag use korchi., onek gulo tag k etar vitore baksobondi kore rakhar jonno ei tag same as div but kichu special kaj ache. Define a section in a document. Section er vitoreo div use kora jai. Jokhn baksor vitore aro onek gula bakso sajabo tokhn section er vitore div k rakhbo tar vitor others tag.

- Css:
  - display : flex; eita use kora hobe jokhn section er vitore div use korbo setake organize korar jonno. Eta pashapashi dekhabe tobe properly na.. Tai
  - Width property use korte hobe new class define kore div er vitore.
    - .class-name{
        - Width: 50%; }
      .class-name tag-name{
        - Width: 100%;}

- Target_blank in link: target="_blank" eivabe use korte hoy anchor tag er vitor. Tahole new tab a window open hobe.
- Make a button:

```
.link-button{
    text-decoration: none;
    background-color: orange;
    color: white;
    font-weight: 700;
    padding: 10px 40px;
    border-radius: 5px;
    background-image: linear-gradient(tomato, #e98567);
}
```

Eta just akta style. Chaile different style o kora jabe iccha moto.. Ekhane text-decoration kichui dea hoini. font -wight holo font k bold korbe 700 value diye.. Padding diyechi top bottom and right left sathe border-radius diyechi 5px jeno aktu round shape hoi.. Chaile duita 3 ta 4 ta value diye design kora jai r image er moddhe gradiant feel disi.

- Bakcground-image: url(images/image-name);
- Backgrond-repeat: no-repeat; background image repeat hoy tai eta use korte hoi and likhte hobe
- Body margin: 0; eta use korle browser er default margin out hobe.
- Background position: bottom left; niche bam pashe show korar jonno
- Box-shadow: **offset-x | offset-y | blur-radius | color**
             box-shadow: 10px 5px 5px black;
- box-shadow - CSS: | MDN this is documentation link of box shadow
- border -image: amra chaile border er asepase gradiant type image use korte pari.. Kon side a border dibo setake slice bole.. border-image-slice - CSS: | MDN etar sathe obossoi border-left/right er pixel solid likhe dite hobe.
